XCHANGE: Social Gastronomy,

Following our last year's support to the event, this year, Chef Calvin and Chef Sunny were invited to cook for the VIP guests under the concept of "Social Gastronomy", an experimental project that explores everyday life from a fresh perspective to facilitate the response of young designers to social issues through innovative social design.

XCHANGE
盛食當灶
SOCIAL GASTRONOMY

The concept of XCHANGE allows people to learn about, discuss and consider social problems and thus to initiate change and new practices with the aid of design and with the primary aim of enhancing the quality of life of different communities and creating a better society
