

IKA CULINARY OLYMPICS

October 22-26
Erfurt, Germany

IKA Culinary Olympics

4 years ago, this was the first international challenge that the Team was tasked after its formation. Now, here we are again, the Team endured a lot of work, endless hours into late night, preparation and training went into the entire process and we had at least 6 cooking practice with chefs, supporters and people of the industry here in Hong Kong and we could see the menu was steadily improving every time, and for the past two times was nearly perfect in our perception.

We ended up with 2 gold medal in the cold Buffet and the pastry art but unfortunately a silver in the Hot Cooking ., which came a bit as a disappointment, as the team has given their best shoot. And from the jury, we were probably not classical enough, or have a bit too much Hong Kong flavor; we agreed to disagree – may be we are taking risk, yet, we also believe that this was the chance to showcase the Hong Kong flavor to the world, sometimes it is not about winning, its about a true representation of Hong Kong, where western and local food melt and sizzling with pride! Just like our beautiful showpiece – with the very special HK skyline and our city flower as the base, portraying the perfect CHAOTIC HARMONY! There is no other place like Hong Kong, and there is no better Team than ours! We may not win the gold medal, we sure are proud of our Hong Kong Team!
