Demo & Workshop

April 26, 2016

The workshop was well attended by over 50 professional pastry chefs and student chefs. Chef Roger and his team took us through their creations for the World Chocolate Masters final competition in Paris last October. Visualizing how the beautiful showpiece was created, everyone applauded when the showpiece was completed in front of their eyes. It was a long session (from 10am to 5pm); all participants not just stayed through the whole session, they were reluctant to leave even when the session was over – all gathered around Chef Roger, Chef Andy and the team for more sharing. Thanks to VTC for partnering with us to organize this and we certainly hoped that the chefs have inspired the students to consider this a worth pursuit profession, and the attending pastry chefs to strive for excellence!
