FORWARD FOCUS WORKSHOP 2 CHOCOLATE SHOWPIECE MADE EASY with Chocolate Master Roger Fok And HK Team on 2019.11.04

19 chefs from different hotels and over 30 students joined this 5-hour workshop. Chef Roger carefully designed the theme and diligently prepared for the workshop with the support of the Hong Kong Culinary Team pastry members. "Nightmare Before Christmas" is the crossing-over of Halloween and Christmas, a fun expression of visual and practical pastry work life. Roger and the Team illustrated step-by-step demonstration covering all the essentials of chocolate-making, from tempering and creating elements to using molds, transfer sheets, to assembling, polishing and finishing. At around 5pm, all the participating chefs presented their perhaps first chocolate showpiece, standing proudly alongside each other. We sincerely hoped that attendees have benefited from the opportunity to share ideas, have some fun and bring home positive energy!
